ANGELBITCH

kiss me...with your lips,
lick me tongueless,
caress me with your hands,
lick me tongueless.

You just announced me your own sterility,
lie lie lie your pretty love to me,
break, break, break with your inanity

I can think of the things you said:
"I'll never leave you" inside my head
I can think of, the lies you said:
"I'll never hurt you" inside my head
psychowhore...angelbitch.
I can say fuck to what you you said:
"I'll never leave you" inside my head.
I can say fuck to what you you said:
I could kill you, just for love...

Kill me with you thrills,
hug me loveless
touch me with your hands,
swear me, tongueless...

you just announced me your own sterility;
lie, lie, lie your pretty love to me
break, break, break with your inanity

I can think of the things you said:
"I'll never leave you" inside my head.
I can think of, the lies you said:
"I'll never hurt you" inside my head.
Psychowhore...angelbitch.
I can say fuck to what you you said:
"I'll never leave you" inside my head;
I can say fuck to what you you said:
I could kill you, just for love...just for love...

break me...angelbitch!
