

## PROZAC GENERATION

"Without a colour  
I try to draw a picture of me"...

Acid, through my veins I am pumping,  
A catheter in my heart decides,  
An iron lung circumscribes  
my whole life to circumsize  
Caught in barbed wire  
I sleep in a sheet of sweat,  
An iron lung circumscribes  
my whole life to circumsize

just the fake of a life...

faint, fading away....  
I disappear here;  
faint, fading away....

"Anaemic is my muse  
I try to draw a picture of me"

Bleach me, with your words  
kill me, in this world....  
An iron lung circumscribes  
my whole life to circumsize....  
Scaring new lines on my skin  
I don't bleed out but within,  
An iron lung circumscribes  
my whole life to circumsize...

faint, fading away  
I disappear here  
faint, fading away....

convulse, contorted, unconformed, distorted...

Novocaine is obscene,  
Roipnol plays just my role,  
Seroxat for every time,  
Lexotan is that enough!
